Screening Invitation

IN THEIR BOOTS is a documentary film series that raises awareness for the challenges that face America's brave men and women in uniform during and after their service. For the next 10 months, IN THEIR BOOTS will take its films on the road in a national tour to highlight veterans' stories and explore ways to improve veteran care.

Join us in San Francisco to kick off the national tour with the premiere screening of 'Broken Promise.' 'Broken Promise' is the story of three Iraq War vets who fell through the cracks of the VA, and an innovative Northern California program that saved their families and their lives.

The screening will be followed by a panel discussion led by Fred Gusman, the founder of the Pathway Home. Dr. Gusman will be joined by several of the veterans he has treated as well as other experts from veteran service organizations to discuss how The Pathway Home model can help the VA to better serve veterans who struggle with mental health.

This event is free of charge.

Due to limited seating an RSVP is required, but does not guarantee admission.

Please RSVP by 6:00 PM on March 19th to:
